

## Licensee categories for licences granted by DSMIG for the development of Down syndrome electronic growth charts

Licensee category	Charge for granting of a licence	Category
Applicants not intending to produce charts for commercial purposes (e.g. academic institutions, researchers, possibly parent groups or similar voluntary organisations)	£250 administration fee (can be waived in individual cases at discretion of licensing sub-committee)	1
NHS Trusts intending to develop a chart using their own resources	£250 admin charge only	2
NHS trusts asking for the tables so that they can employ a software company to create charts	Trusts cannot pass the tables on to a third party hence request has to come from the software company itself	3
Software developer engaged by a trust to produce charts solely for the use of that trust	£1050 annual admin fee £250 royalty per software package sold (should only be one)	4
Software developers producing a commercial package	£1050 annual admin fee £250 royalty per software package sold	5

Licencees to be asked to send DSMIG a sales report and any royalty payments owed on a 3 monthly basis.

Agreements to be valid for 3 years and then subject to renegotiation.
